Re: Second Request - Five Year Review of Reclamation Surety Estimate, Georgia Pacific Corporation, Eagle Canyon Quarry/San Rafael, M/015/050, Emery County, Utah

Dear Mr. Harms:

On September 11, 2002, the Division sent a notice to Georgia Pacific Corporation stating that we were performing a standard five-year review of your reclamation surety estimate to verify its accuracy and adequacy. Periodic adjustments to the surety are necessary to allow for the escalation of costs associated with the reclamation of the Eagle Canyon Quarry/San Rafael Project. Division policy requires that all reclamation surety cost estimates include a standard five-year escalation provision and be reviewed and updated every five years.

In our September 11, 2002 letter we asked for certain updated information to assist us in performing our surety assessment for your mine site. To date, the Division has not received a reply addressing our initial request.

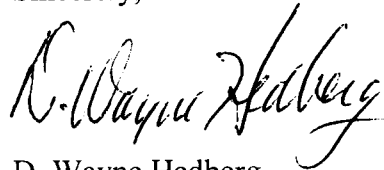

The five-year periodic surety review for the Eagle Canyon Quarry/San Rafael was due in 2002. In order to accurately update the information concerning the reclamation of this site, updated maps showing current surface disturbances and surface facilities are necessary. A failure to furnish this information in a timely manner may lead to an enforcement action which could result in a temporary suspension of your operation, or other lawful penalties, until such time as the requested information is received.

Please provide this information within the next 30 days, or no later than April 21, 2003. If you are unable to provide this information, please contact the Division with justification for

requesting additional time. Thank you for providing this information to assist us in our surety estimate review. If you have any questions concerning this letter, please contact Doug Jensen at (801) 538-5382.

Sincerely,
